

An international workshop on “Best Practices in Methane Drainage and Use in Coal Mines” is scheduled on 9th – 10th March, 2017 at Radisson Blu, Ranchi (Jharkhand). The event details and update is available at (<http://www.unece.org/index.php?id=45172#/>) and (https://www.globalmethane.org/newsevents/event_detailsByEventId.aspx?eventId=466).

The workshop is being organized by the Central Mine Planning & Design Institute (CMPDI)-Coal India Limited (CIL) under the aegis of India CMM/CBM Clearinghouse on behalf of Ministry of Coal (GoI-MoC) in association with Global Methane Initiative (GMI)-United States Environmental Protection Agency (US EPA), United Nations Economics Commission for Europe (UNECE).

Purpose:

- to disseminate and promote the Best Practice Guidance for Effective Methane Drainage and Use in Coal Mines developed by the UNECE Group of Experts on CMM;
- to promote best practices to ensure safer coal mines, reduced GHG emissions and optimized gas use;
- to pool global and local expertise;
- to engage with principal local and national stakeholders in India;
- to identify and help to address local CMM-related problems.

To participate in the workshop please contact at the following address.

Mr. D. Basu

General Manager (CBM)

CBM Cell, CMPDI (H.Q), Ranchi (Jharkhand)
